ICT-AGRI Newsletter 19 repeat

Apologies for possible multiple sending

When we first issued the ICT-AGRI Newsletter 19 we received several replies that the content is missing. We are therefore resending the Newsletter to all subscribers because we cannot know who have received good mails.

We apologize for any inconvenience.

The ICT-AGRI team.

ICT-AGRI Call 2017 - Farm Management Systems

ICT-AGRI is preparing a call for transnational projects to be launched in **November 2016** and closed for applications in February 2017. Over the summer ICT-AGRI will discuss this call with stakeholders and potential applicants, and seek funding commitments. The scope of the call is to support activities concerning the implementation of Smart Applications on farms in three different areas. For further information read the [attached document](#). Your opinion is important - [Add a comment](#)

Mapping of projects within ICT and robotics for agriculture

ICT-AGRI is collecting data about ongoing projects within ICT and automation for a sustainable agriculture. The results of the analysis of these data will be presented as an introduction to a discussion on how collaboration among projects may be encouraged and supported in the **ICT-AGRI workshop 29 June 13.30 - 15.30h** at [CIGR AgEng NJF Conference, Aarhus, Denmark, 26-29 June](#)

Two ICT-AGRI workshops and many other interesting events within ICT & Agriculture

ICT-AGRI is organising two workshops in the next two months before the summer break. May 2016 brings the first which will happen at the [CAPIGI & GEOAGRI](#) conference in Rotterdam. The second workshop of ICT-AGRI will be held in June at the [CIGR AgEng NJF Conference](#) in Aarhus. Many other relevant events for the sector of ICT in agriculture you find under *Community events* on ICT-AGRI's website.

New Horizon Project CAPSELLA conducts its with first Workshop at the end of May

The new Horizon project [CAPSELLA](#) (Collective Awareness PlatformS for Environmentally-sound Land management based on data technologies and Agrobiodiversity) took its first steps on 1 January 2016. CAPSELLA will deepen the roots of sustainability in agri-food systems by harnessing scientific and local knowledge around the theme of agrobiodiversity by making use of novel, improved and demand-driven ICT solutions. The first workshop of CAPSELLA will take place in Volterra at the [SIAF premises](#), about 40 Km from Pisa on the **30th and 31st of May 2016**.

Call for papers in Agricultural Mechatronics

Call for papers for a Focused Section on Mechatronics Applications in Agriculture, IEE/ASME Transactions on MECHATRONICS, Paper submission deadline: **15 July 2016**. For further information concerning topics and manuscript submission details, please download [the full CFP](#)
