

## Advanced Software Engineering

Harald Gall and Martin Glinz

### Reading Assignment: Agile Software Development

#### 1. Mandatory preparation tasks (to be done PRIOR to the lecture)

- Read Chapters 1 and 2 in [Wolf, Roock and Lippert 2005] or something comparable in another book on Extreme Programming.
- Familiarize yourself with the Scrum method (read [Rising and Janoff 2000], browse web resources listed below)
- Read [Williams et al. 2000] about pair programming experience.
- Be prepared to
  - answer questions about XP and SCRUM in class,
  - actually conduct a mini-project in XP.

#### 2. Lecture

There will be no classic lecture. Instead, we will first discuss the topic based on your reading. Then you will conduct a mini-project in XP.

#### Please note

[Wolf, Roock and Lippert 2005] seems to be currently unavailable in the Ifl library. We have a few photocopies of Chapters 1 and 2 available. Furthermore, this book is available in the ETH library.

Articles in IEEE Software can be downloaded for free from <http://ieeexplore.ieee.org> if you access it from the [uzh.ch](http://uzh.ch) domain.
